DATABASE	**:**	Microsoft Access, SQL SERVER
O.S.	**:**	Windows
DEVELOPER TOOLS	**:**	Visual Studio Code, Visual Studio, Postman

PROJECTS

Project Title	**:**	STOCK MANAGEMENT SYSTEM
Technology Used	**:**	ASP.Net
Project Details	**:**	Stock Management System which helps to track all the that are operated throughout the University using HTML, CSS, JS, Bootstrap5, ASP .NET.

WORK EXPERIENCE

1. **STOCK MANAGEMENT SYSYTEM**

   <u>Web Development Intern</u>   **Shivaji University, Kolhapur (June 2022 - Nov2022)**

   - Interned at Shivaji University Kolhapur, as Web Developer in front-end development and designed an intuitive user-interface for Stock Management System which helps to track all the items such as furniture, computers, other small equipment etc. using HTML, CSS, JS, Bootstrap5, ASP.NET.

- One of the significant achievements of this project was the successful transition of Shivaji University from manual stock registers to a digital inventory management system. By implementing the website, we simplified the process of managing inventory while eliminating the possibility of stock specification duplication.

- This digitized solution allowed for easier addition of new entries and efficient updating of existing records. Notably, the system enabled effortless access and management of records dating back to 1962, improving the overall inventory management efficiency of Shivaji University.

2. **PACKING MASTER MODULE**

   Full Stack Developer   **Munimji's IT Solutions Pvt. Ltd. Sangli (June2023 - Till Date)**

- This project seems to be a full-stack web development, combining both front-end and back-end technologies to create a functional web application. Developed a full-stack web application using Visual Studio Code (VS Code) and Visual Studio. Created RESTful Web APIs, class libraries, and controllers for backend functionality.

- Utilized Postman for API testing and validation. creating a Web API, which is a RESTful web service that allows to expose backend functionality over HTTP, making it accessible to client-side applications.

- Implemented the frontend with AngularJS and Bootstrap, focusing on UI design. Designed and built components for various application features.Developed forms for data retrieval, storage, updates, and deletions. Incorporated popup modals for user interactions. Enforced frontend validations to ensure data accuracy and improve user experience.
